

ADITYA KAMLESH YADAV

PRN : 20190802060

**Tech Life**

# **Mission statement:**

To organize the world's  
information and make it  
universally accessible and  
useful.

# The team

*Answer the question, "Why are we the ones to solve the problem we identified?"*

Google

Google has contributed to our project for creating API handles.

Amazon

Amazon has contributed in providing cloud services to our smart devices.

An aerial photograph of the New York City skyline at dusk. The sky is a mix of dark blue and orange, with scattered clouds. The city lights are visible, and the Empire State Building stands out prominently in the center, its top illuminated with red and green lights. Other skyscrapers are visible on either side, and the Hudson River is seen in the distance.

# The technology: GPS + RFID + NLP

A person wearing a dark blue long-sleeved sweater is shown from the chest up. Their hands are clasped together in a prayer position, with fingers pointing upwards. The skin on their hands appears aged. The background is a bright, slightly out-of-focus indoor setting, possibly near a window. The text 'THANK-YOU' is superimposed in the center of the image in a bold, white, sans-serif font.

**THANK-YOU**
